MILWAUKEE, Aug. 15, 2023 /PRNewswire/ -- Talent Solutions Right Management, a global leader in outplacement and career management solutions and part of the [ManpowerGroup](#) (NYSE: MAN) family of brands, has been named to the Forbes list of [America's Best Management Consulting Firms 2023](#). This is the fourth time Right Management has been honored with this prestigious award, having also made the list in 2018, 2020, and 2022.

"It's a privilege to be recognized once more as one of the leading management consulting firms in the U.S.," said Karel van der Mandele, Senior Vice President at Talent Solutions Right Management. "As organizations transform at rapid pace, our devoted team of consultants and coaches continue to stand by our clients and candidates, providing solutions for their most complex talent and career development challenges in a way that prepares them for the future of work."

Forbes originally designed the annual list to help business leaders evaluate management consulting firms as the demand for consulting services continues to rise across all sectors.

"I am proud of the impact our team has in helping individuals, teams and organizations thrive," said Beth Linderbaum, SVP at Right Management. "Each day my inbox is filled with messages about how we have made a positive difference in our work to connect individuals to meaningful careers and build organizational cultures that allow human potential to flourish."

Methodology

Forbes partnered with Statista, the world-leading statistics portal and industry ranking provider, to produce its eighth annual list of America's Best Management Consulting Firms, comprised of the best consultancies based on results of an online, two-step methodology including expert and client surveys. This installment was compiled by surveying 10,000 partners and executives of management consultancies, and more than 1,200 senior executives who worked with such firms over the last four years. The list is divided into 16 sectors—from aerospace and defense to financial institutions—and 16 functional areas—including strategy, sustainability, and digital transformation.
