**Notes to Consolidated Financial Statements (Unaudited)
For the Three Months Ended March 31, 2007 and 2006
(in millions, except share and per share data)**

(1) Basis of Presentation

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission, although we believe that the disclosures are adequate to make the information presented not misleading. These consolidated financial statements should be read in conjunction with the consolidated financial statements included in our 2006 Annual Report to Shareholders.

The information furnished reflects all adjustments that, in the opinion of management, are necessary for a fair statement of the results of operations for the periods presented. Such adjustments are of a normal recurring nature.

(2) New Accounting Standards

During July 2006, the Financial Accounting Standards Board (“FASB”) issued FASB Interpretation No. 48, “Accounting for Uncertainty in Income Taxes, and Related Implementation Issues” (“FIN 48”). FIN 48 prescribes a comprehensive model for how a company should recognize, measure, present, and disclose in its financial statements uncertain tax positions that the company has taken or expects to take on a tax return. We adopted FIN 48 as of January 1, 2007. See Note 5 to the financial statements for further information.

In September 2006, the FASB issued Statement No. 157, “Fair Value Measurements” (“SFAS 157”). SFAS 157 defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles, and expands disclosures about fair value measurements. Subsequently, in February 2007, the FASB issued SFAS No. 159, “The Fair Value Option for Financial Assets and Financial Liabilities” (“SFAS 159”). SFAS 159 permits entities to choose to measure many financial assets and financial liabilities at fair value. Unrealized gains and losses on items for which the fair value option has been elected are reported in earnings. Both SFAS 157 and SFAS 159 are effective for us in 2008. We are currently assessing the impact of the adoption of these statements.

(3) Stock Compensation Plans

During the three months ended March 31, 2007 and 2006, we recognized expense of approximately \$5.7 and \$4.6, respectively, in share-based compensation expense related to grants of stock options, deferred stock, restricted stock, and performance share units, and issuances of stock related to our employee stock purchase plan. Cash received from stock option exercises was \$20.0 and \$26.5 for the three months ended March 31, 2007 and 2006, respectively. We recognize compensation expense on grants of share-based compensation awards on a straight-line basis over the service period of each award recipient in Selling and Administrative Expenses.

Our annual grant of share-based compensation generally takes place during the first quarter of each fiscal year. The number of shares underlying grants to all employees and the weighted-average fair value per share during the first quarter of 2007 and 2006 are presented in the table below:

	3 Months Ended March 31,			
	2007		2006	
	Shares Granted (thousands)	Wtd.-Avg. Share Fair Value	Shares Granted (thousands)	Wtd.-Avg. Share Fair Value
Stock Options	810	\$ 22.20	958	\$ 16.26
Deferred Stock Units	12	74.87	18	51.18
Restricted Stock	16	76.15	53	52.08
Performance Share Units	106	76.30	121	53.00
Total Shares Granted	946	29.80	1,150	22.32

(4) Acquisitions, Discontinued Operations, and Reorganization Costs

Acquisitions

From time to time, we acquire and invest in companies throughout the world, including franchises. The total cash consideration paid for acquisitions in the first quarter was \$5.0 and \$7.2 for 2007 and 2006, respectively.

In connection with the acquisition of Right Management in 2004, we established reserves totaling \$24.5 for severance and other office lease closure costs related to streamlining Right Management's worldwide operations. As of March 31, 2007, \$22.7 has been paid from these reserves, of which \$0.7 was paid during the three months ended March 31, 2007. The remaining \$1.8, which primarily represents future operating lease costs, will be paid by the end of 2008.

[Table of Contents](#)

Discontinued Operations

In January 2006, we sold a non-core payroll processing business in Sweden. The cash proceeds from this sale of \$29.6 were received in 2006. In addition, in December 2006, we sold a non-core facilities management services business in the Nordics, and recorded a net loss of \$1.7 on the disposal of one of our Right Management subsidiaries. We have recorded the results of these operations as discontinued operations. Summarized financial information for the discontinued operations is as follows:

	<u>3 Months Ended</u> <u>March 31, 2006</u>
Revenues from services	\$ 52.7
Cost of services and Selling and administrative expenses	53.4
Loss before income taxes	(0.7)
Credit for income taxes	0.1
Net gain on sale of business, net of income taxes of \$5.6	23.7
Income from discontinued operations, net of income taxes	<u>\$ 23.1</u>

The presentation for discontinued operations conforms to the presentation disclosed in our 2006 annual report. Prior year results have been restated to conform to the current year presentation.

Reorganization Costs

In the first quarter of 2006, we recorded expenses totaling \$9.5 in the U.K. and \$1.2 at Right Management for severance and other office closure costs related to reorganizations at these entities. Of the \$9.5 in the U.K., \$5.9 has been paid as of March 31, 2007, of which \$0.5 was paid during the three months ended March 31, 2007. We expect a majority of the remaining \$3.6 will be paid in 2007. All of the reorganization costs at Right Management were paid during the three months ended March 31, 2006. In the fourth quarter of 2006, we recorded expenses totaling \$6.9 at Right Management for severance costs. As of March 31, 2007, \$1.9 has been paid, of which \$1.6 was paid during the three months ended March 31, 2007. We expect a majority of the remaining \$5.0 will be paid in 2007.

In 2005, we recorded total expenses of \$15.3 in France for severance costs related to a reorganization. As of March 31, 2007, \$10.1 has been paid from the France reserve, \$1.5 of which was paid during the three months ended March 31, 2007. We expect a majority of the remaining \$5.2 will be paid in 2007.

(5) Income Taxes

We adopted the provisions of FIN 48 as of January 1, 2007. As a result, we recognized a \$4.3 increase in the net liability for unrecognized tax benefits, which was accounted for as an adjustment to retained earnings at January 1, 2007. As of the date of adoption, we had gross unrecognized tax benefits of \$67.0 on our consolidated balance sheet and related tax benefits of \$24.5. The net amount of \$42.5 would favorably affect the effective tax rate if recognized. We do not anticipate that the net amount of unrecognized tax benefits will change significantly during the next twelve months.

We conduct business globally and, as a result, we are routinely audited by the various tax jurisdictions in which we operate. Generally, the tax years that remain subject to tax examination are 2002 through 2006 for our major operations in the U.S., France, U.K., Italy and Japan. As of January 1, 2007, we were under audit in France and the U.K, and are currently under audit in France, U.K., U.S., and Spain. There was no significant change in the total unrecognized tax benefits due to the settlement of audits, the expiration of statute of limitations, or for other items during the quarter ended March 31, 2007.

[Table of Contents](#)

We recognize accrued interest and penalties related to unrecognized tax benefits in income tax expense. The combined amount of accrued interest and penalties as of January 1, 2007 was \$6.2 and is included in the net unrecognized tax benefit above. There were no significant changes during the quarter ended March 31, 2007.

We provided for income taxes from continuing operations during the first quarter of 2007 at a rate of 36.5% based on our current estimate of the annual effective tax rate. This rate is higher than the U.S. Federal statutory rate of 35% due primarily to the impact of U.S. state income taxes and other permanent items. This rate is lower than the annual effective tax rate for 2006, and the rate for first quarter 2006 due to certain discrete items recorded in the first and fourth quarters of 2006, including reorganization charges and costs related to our global cost reduction initiative.

(6) Earnings Per Share

The calculation of Net Earnings Per Share – Basic is as follows:

	3 Months Ended March 31,	
	2007	2006
Net Earnings from continuing operations	\$ 59.5	\$ 29.5
Income from discontinued operations, net of taxes	—	23.1

Net earnings per share from continuing operations – diluted	\$ 0.69	\$ 0.33
Net earnings per share from discontinued operations – diluted	—	0.26
Total	\$ 0.69	\$ 0.59

The calculation of Net Earnings Per Share – Diluted does not include certain option grants because the exercise price for these options is greater than the average market price of the common shares during the period. There were 910,496 options excluded from the calculation for the three months ended March 31, 2007. There were no such options excluded for the three months ended March 31, 2006.

(7) Retirement Plans

The components of the net periodic benefit cost for our plans are as follows:

	3 Months Ended March 31,			
	Defined Benefit Pension Plans		Retiree Health Care Plan	
	2007	2006	2007	2006
Service cost	\$ 3.3	\$ 2.9	\$ 0.1	\$ 0.1

- (a) In the United States, where a majority of our franchises operate, Revenues from Services include fees received from the related franchise offices of \$5.3 for the three months ended March 31, 2007 and 2006. These fees are primarily based on revenues generated by the franchise offices, which were \$269.1 and \$282.3 for the three months ended March 31, 2007 and 2006, respectively.

Our consolidated Revenues from Services include fees received from our franchise offices of \$8.4 and \$8.0 for the three months ended March 31, 2007 and 2006, respectively. These fees are primarily based on revenues generated by the franchise offices, which were \$362.4 and \$362.8 for the three months ended March 31, 2007 and 2006, respectively.

- (b) Italy and Other EMEA were previously combined as the EMEA segment. All previously reported results have been revised to conform to the current year presentation.

Item 2 Management's Discussion and Analysis of Financial Condition and Results of Operations

Operating Results - Three Months Ended March 31, 2007 and 2006

Revenues from Services increased 17.0% to \$4,535.6 million for the first quarter of 2007 from the same period in 2006. Revenues were positively impacted by changes in foreign currency exchange rates during the period due to the weakening of the U.S. Dollar relative to the currencies in most of our non-U.S. markets. In constant currency, revenues increased 9.6%. This growth rate is a result of increased demand for our services in most of our markets, including France, Other EMEA, Italy and Other Operations, where revenues increased 10.4%, 17.0%, 15.3% and 10.6%, respectively, on a constant currency basis. We also saw solid growth in our permanent recruitment business which increased 30.0% on a consolidated basis in constant currency. (See Financial Measures on page 18 for further information on constant currency.)

Gross Profit increased 15.4% to \$800.0 million for the first quarter of 2007. In constant currency, Gross Profit increased 8.5%. Gross Profit Margin was 17.6%, a decrease of 0.24% from the first quarter of 2006. The decrease in Gross Profit Margin is primarily a result of a change in the mix of services provided (-0.43%) primarily due to a lower amount of revenues coming from Right Management and Jefferson Wells, where the gross profit margin is generally higher than the company average, and a slight decrease in the temporary recruitment business margin (-0.08%). This decrease is partially offset by an increase in our permanent recruitment business (+0.27%).

Selling and Administrative Expenses increased 10.1% from the first quarter of 2006 to \$696.7 million in the first quarter of 2007. These expenses increased 3.9% in constant currency. This increase is primarily in response to the increase in business volumes and reflects investments made in the permanent recruitment business. As a percent of revenues, Selling and Administrative Expenses were 15.4% in the first quarter of 2007 compared to 16.3% in the first quarter of 2006. This decrease reflects a favorable impact of cost control efforts and productivity gains offset by continued investments in certain markets. Included in the first quarter of 2006 were \$18.2 million of reorganization charges and global cost reduction project costs.

Operating Profit increased 71.2% for the first quarter of 2007 compared to 2006, with an Operating Profit Margin of 2.3% in 2007 compared to 1.6% in 2006. On a constant currency basis, Operating Profit increased 57.1%, which reflects the favorable impact of cost control efforts and productivity gains, offset by the decrease in Gross Profit Margin.

Interest and Other Expenses were \$9.6 million in the first quarter of 2007 compared to \$13.0 million for the same period in 2006. Net Interest Expense decreased \$1.3 million in the quarter to \$7.0 million due primarily to higher interest income. Translation losses in the first quarter of 2007 were \$0.1 million compared to \$0.9 million in the first quarter of 2006. Miscellaneous Expenses, net, which consists of bank fees and other non-operating income and expenses, was \$2.5 million in the first quarter of 2007 compared to \$3.8 million in the first quarter of 2006.

We provided for income taxes from continuing operations during the first quarter of 2007 at a rate of 36.5% based on our current estimate of the annual effective tax rate. This rate is higher than the U.S. Federal statutory rate of 35% due primarily to the impact of U.S. state income taxes and other permanent items. This rate is lower than the annual effective tax rate for 2006, and the rate for first quarter 2006 due to certain discrete items recorded in the first and fourth quarters of 2006, including reorganization charges and costs related to our global cost reduction initiative.

Net Earnings Per Share – Diluted increased 16.9% to \$0.69 in the first quarter of 2007 compared to \$0.59 in the first quarter of 2006. Net Earnings Per Share From Continuing Operations – Diluted was \$0.69 in 2007 compared to \$0.33 in 2006. The higher foreign currency exchange rates positively impacted Net Earnings Per Share – Diluted by approximately \$0.05 in the first quarter of 2007 compared to 2006. Weighted-Average Shares – Diluted were 86.5 million in the first quarter of 2007, a decline of 2.4% from the first quarter of 2006. This decline is primarily a result of share repurchases in 2006 and the first quarter of 2007.

Segment Operating Results

United States

In the United States, revenues decreased 5.2% for the first quarter of 2007 compared to the first quarter of 2006, due primarily to a decrease in staffing volume as demand for our services declined, partially offset by a 63.3% increase in our permanent recruitment business. While we continue to see year-over-year growth in our professional business, growth rates for all of our services, including placement of light industrial and industrial skilled workers, skilled office workers, and our professional workers, declined from those experienced in the first quarter of 2006.

Gross Profit Margin increased during the first quarter of 2007 compared to the first quarter of 2006 primarily due to an increase in the permanent recruitment business as well as a decrease in state unemployment taxes.

Selling and Administrative Expenses decreased during the first quarter of 2007 compared to 2006 primarily due to a decrease in advertising costs, as February 2006 was the launch of our new brand, partially offset by an increase in personnel costs due to increased headcount.

Operating Unit Profit (“OUP”) Margin in the United States was 2.4% and 1.9% for the first quarter of 2007 and 2006, respectively. This improvement is primarily related to the increased gross profit margin coupled with effective expense management.

France

In France, revenues increased 20.4% (10.4% in constant currency) during the first quarter of 2007 compared to 2006, an increase from the 7.7% growth (in constant currency) reported in the fourth quarter of 2006. This increased growth is the result of increased demand for our services.

Gross Profit Margin in the first quarter of 2007 was equal to the first quarter of 2006 as pricing pressures are beginning to stabilize in the French market.

Selling and Administrative Expenses increased during the first quarter of 2007 compared to the first quarter of 2006 primarily due to investments in the permanent recruitment business. Expenses were well controlled and decreased as a percentage of revenue in the quarter, as we were able to leverage the existing cost base to support the increased revenues without a similar increase in expenses.

During the first quarter of 2007 and 2006, OUP Margin in France was 2.9% and 2.5%, respectively. This improvement reflects the improved productivity and leveraging of Selling and Administrative Expenses.

Other EMEA

Historically, the results of Other EMEA and Italy were combined as the EMEA segment. Italy is now a separate reportable segment and all previously reported results have been revised to conform to the current year presentation.

In Other EMEA, which represents operations throughout Europe, the Middle East and Africa (excluding France and Italy), revenues increased 28.4% (17.0% in constant currency) in the first quarter of 2007 compared to the first quarter of 2006. Local currency revenue growth was experienced in most major markets with the highest growth rates reported in the Nordics, Germany, Holland, and Spain. Permanent recruitment revenues increased 29.2% during the quarter as a result of our investments in this business.

Gross Profit Margin increased in the first quarter of 2007 compared to the first quarter of 2006 primarily due to the increase in permanent recruitment revenues and improved pricing discipline in many markets.

Selling and Administrative Expenses increased during the first quarter of 2007 compared to the first quarter of 2006 due to the need to support increased volumes. Expenses as a percent of revenues decreased in the quarter compared to the first quarter of 2006 primarily due to productivity improvements, as Other EMEA has continued to increase permanent placements without a similar increase in branch headcount.

OUP Margin for Other EMEA was 2.5% and 1.2% for the first quarter of 2007 and 2006, respectively. This margin improvement was primarily the result of leveraging our expense base with increased revenue and gross profit levels.

Italy

In Italy, revenues increased 25.7% (15.3% in constant currency) in the first quarter of 2007 compared to the first quarter of 2006, as demand for our services in Italy remained strong. Permanent recruitment revenues increased 55.0% during the first quarter of 2007 compared to the first quarter of 2006.

Gross Profit Margin in the first quarter of 2007 increased compared to the first quarter of 2006 due to the increase in permanent recruitment revenues and improved pricing discipline in the market.

Selling and Administrative Expenses increased during the first quarter of 2007 compared to the first quarter of 2006 primarily due to an increase in personnel costs. However, expenses as a percent of revenue decreased in the quarter compared to the first quarter of 2006 as we were able to leverage the existing cost base to support the increased revenues without a similar increase in expenses.

OUP Margin for Italy was 5.4% and 3.9% for the first quarter of 2007 and 2006, respectively. This margin improvement was primarily the result of leveraging our expense base with increased revenue and gross profit levels.

Jefferson Wells

Revenues for Jefferson Wells in the first quarter of 2007 decreased 14.9% compared to the first quarter of 2006 due primarily to the decline in Sarbanes-Oxley related control services and the completion of two large projects that positively impacted 2006 revenue levels.

The Gross Profit Margin in the first quarter of 2007 declined compared to the first quarter of 2006 due to lower utilization of our professional staff, which resulted in a decrease in revenues without a corresponding decrease in the costs of maintaining our professional staff.

[Table of Contents](#)

Selling and Administrative Expenses decreased 5.2% during the first quarter compared to the first quarter of 2006 due to lower personnel and office costs. As a percentage of revenue, expenses have increased compared to the first quarter of 2006.

The OUP Margin for Jefferson Wells in the first quarter of 2007 was 1.2% compared to 6.0% in the first quarter of 2006. This decreased margin is primarily the result of lower utilization of professional staff.

Right Management

Revenues for Right Management in the first quarter of 2007 decreased 1.5% (5.5% in constant currency) compared to the first quarter of 2006 (a decrease of 5.5% on a constant currency basis). This decrease in constant currency is the result of lower demand for outplacement services as economies in major markets continue to improve, offset by improving demand for Right's organizational consulting services.

Gross Profit Margin decreased in the first quarter of 2007 compared to the first quarter of 2006 as a result of changes in the mix of business between outplacement and organizational consulting services.

Selling and Administrative Expenses decreased in the first quarter of 2007 compared to the first quarter of 2006 due to reduced personnel and office expenses, including the \$1.2 million reorganization charge recorded in the first quarter of 2006.

OUP Margin for Right Management was 6.5% in the first quarter of 2007 compared to 4.9% in the first quarter of 2006. This increased margin is the result of the improvement in Selling and Administrative Expenses.

Other Operations

Revenues for Other Operations increased 10.9% (10.6% in constant currency) during the first quarter of 2007 compared to 2006. Revenue increases for the first quarter, in constant currency, were experienced in virtually all markets in this segment, including Argentina, Mexico and Japan which experienced revenue growth rates of 29.5%, 8.2% and 4.3%, respectively. India and China also continue to show strong revenue growth. Permanent recruitment revenues increased 19.5% in constant currency as result of investments in this business.

The Gross Profit Margin decreased in the first quarter of 2007 compared to 2006 primarily due to a shift in the mix of business toward those countries and services with lower gross profit margins.

Selling and Administrative Expenses increased 14.5% in the first quarter of 2007 compared to the first quarter of 2006 to support increased revenue levels and as a result of a large advertising campaign in Japan and investments in office openings and the permanent recruitment business in certain markets. Expenses increased as a percent of revenue for the quarter.

The OUP Margin for Other Operations in the first quarter of 2007 was 2.1% compared to 3.2% for the same period in 2006. This decline is primarily due to the decrease in Gross Profit Margin coupled with the increase in Selling and Administrative Expenses.

Financial Measures

Constant Currency Reconciliation

Changes in our revenues and operating profits include the impact of changes in foreign currency exchange rates. We provide “constant currency” calculations, which are non-GAAP measures, in this quarterly report to remove the impact of these items. We typically express year-over-year variances that are calculated in constant currency as a percentage.

When we use the term “constant currency,” it means that we have translated financial data for a period into U.S. Dollars using the same foreign currency exchange rates that we used to translate financial data for the previous period. We believe that this calculation is a useful measure to investors, indicating the actual growth of our operations. We utilize constant currency results in our analysis of subsidiary or segment performance. We also use constant currency when analyzing our performance against that of our competitors. Earnings from our subsidiaries are not generally repatriated to the United States, and we typically do not incur significant gains or losses on foreign currency transactions with our subsidiaries. Therefore, changes in foreign currency exchange rates primarily impact only reported earnings and not our actual cash flow or economic condition.

A reconciliation of Constant Currency amounts to certain of our reported results is provided below.

	Three Months Ended March 31, 2007 Compared to 2006

Liquidity and Capital Resources

Cash provided by operating activities was \$102.8 million in the first quarter of 2007 compared to \$74.5 million for the first quarter of 2006. This increase is primarily due to the increased operating earnings, offset by increased working capital needs. Cash provided by operating activities before changes in working capital requirements was \$105.2 million in the first quarter of 2007 compared to \$43.1 million in the first quarter of 2006.

Accounts receivable decreased to \$3,775.2 million as of March 31, 2007 from \$3,837.2 million as of December 31, 2006. This decrease is due to seasonal fluctuations as the revenue levels in the first quarter are typically lower than the fourth quarter. Changes in foreign currency exchange rates increased the reported amount of accounts receivable. At December 31, 2006 exchange rates, the March 31, 2007 balance would have been approximately \$31.3 million lower than reported.

Capital expenditures were \$16.8 million in the first quarter of 2007 compared to \$15.2 million during the first quarter of 2006. These expenditures are primarily comprised of purchases of computer equipment, office furniture and other costs related to office openings and refurbishments.

From time to time, we acquire and invest in companies throughout the world, including franchises. The total cash consideration for acquisitions in the first quarter of 2007 was \$5.0 million compared to \$7.2 million in the first quarter of 2006.

In January 2006, we sold a non-core payroll processing business in Sweden. The cash proceeds from this sale of \$29.6 million were received in 2006.

In December of 2005, we sold one of our available-for-sale investments for a gain of \$2.6 million. Proceeds from this transaction of \$8.8 million were received in the first quarter of 2006.

Net debt borrowings in the first quarter of 2007 were \$3.8 million compared to \$3.2 million in the first quarter of 2006. There were no borrowings outstanding under our Receivables Facility as of March 31, 2007 or December 31, 2006.

As of March 31, 2007, we had borrowings of \$133.5 million and letters of credit of \$3.7 million outstanding under our \$625.0 million revolving credit agreement. There were no borrowings outstanding under our commercial paper program.

Our \$625.0 million revolving credit agreement requires, among other things, that we comply with a Debt-to-EBITDA ratio of less than 3.25 to 1 and a fixed charge ratio of greater than 2.00 to 1. As defined in the agreement, we had a Debt-to-EBITDA ratio of 1.26 to 1 and a fixed charge ratio of 3.21 to 1 as of March 31, 2007. Based upon current forecasts, we expect to be in compliance with these covenants throughout 2007.

In addition to the previously mentioned facilities, we maintain separate bank facilities with financial institutions to meet working capital needs of our subsidiary operations. As of March 31, 2007, such facilities totaled \$314.5 million, of which \$279.8 million was unused. Due to limitations on subsidiary borrowings in our revolving credit agreement, additional borrowings of \$112.7 million could have been made under these lines as of March 31, 2007. Under the \$625.0 million revolving credit agreement, total subsidiary borrowings cannot exceed \$150.0 million in the first, second and fourth quarters, and \$300.0 million in the third quarter of each year.

In October 2006, the Board of Directors authorized the repurchase of 5.0 million shares of our common stock, not to exceed a total price of \$325.0 million. Share repurchases may be made from time to time and may be implemented through a variety of methods, including open market purchases, block transactions, privately negotiated transactions, accelerated share repurchase programs, forward repurchase agreements or similar facilities. During the first quarter of 2007, we repurchased 991,900 shares at a total cost of \$72.7 million. There are 4.0 million shares remaining available for repurchase under our existing authorization, not to exceed a total price of approximately \$252.3 million. During the first quarter of 2006, we repurchased 612,600 shares at a total cost of \$33.0 million under the 2005 authorization.

On May 2, 2007, the Board of Directors declared a cash dividend of \$0.32 per share, which is payable on June 14, 2007 to shareholders of record on June 5, 2007.

We have aggregate commitments related to debt repayments, operating leases, severances and office closure costs, and certain other commitments of \$1,853.7 million as of March 31, 2007 compared to \$1,855.3 million as of December 31, 2006.

In the first quarter of 2006, we recorded expenses totaling \$9.5 million in the U.K. and \$1.2 million at Right Management for severance and other office closure costs related to reorganizations at these entities. Of the \$9.5 million in the U.K., \$5.9 million has been paid as of March 31, 2007, of which \$0.5 million was paid during the three months ended March 31, 2007. We expect a majority of the remaining \$3.6 million will be paid in 2007. All of the reorganization costs at Right Management were paid during the three months ended March 31, 2006. In the fourth quarter of 2006, we recorded expenses totaling \$6.9 million at Right Management for severance costs. As of March 31, 2007, \$1.9 million has been paid, of which \$1.6 million was paid during the three months ended March 31, 2007. We expect a majority of the remaining \$5.0 million will be paid in 2007.

In 2005, we recorded total expenses of \$15.3 million in France for severance costs related to a reorganization. As of March 31, 2007, \$10.1 million has been paid from the France reserve, \$1.5 million of which was paid during the three months ended March 31, 2007. We expect a majority of the remaining \$5.2 million will be paid in 2007.

In connection with the acquisition of Right Management in 2004, we established reserves totaling \$24.5 million for severance and other office lease closure costs related to streamlining Right Management's worldwide operations. As of March 31, 2007, \$22.7 million has been paid from these reserves, of which \$0.7 million was paid during the three months ended March 31, 2007. The remaining \$1.8 million, which primarily represents future operating lease costs, will be paid by the end of 2008.

We also have entered into guarantee contracts and stand-by letters of credit that total approximately \$114.2 million and \$136.5 million as of March 31, 2007 and December 31, 2006, respectively, \$56.2 million and \$61.6 million for guarantees, respectively, and \$58.0 million and \$74.9 million for stand-by letters of credit, respectively. Guarantees primarily relate to bank accounts, operating leases, and indebtedness. The stand-by letters of credit relate to workers' compensation, operating leases and indebtedness. If certain conditions were met under these arrangements, we would be required to satisfy our obligation in cash. Due to the nature of these arrangements and our historical experience, we do not expect to make any significant payments under these arrangements. Therefore, they have been excluded from our aggregate commitments identified above.

Recently Issued Accounting Standards

During July 2006, the FASB issued FASB Interpretation No. 48, "Accounting for Uncertainty in Income Taxes, and Related Implementation Issues" ("FIN 48"). FIN 48 prescribes a comprehensive model for how a company should recognize, measure, present, and disclose in its financial statements uncertain tax positions that the company has taken or expects to take on a tax return. We adopted FIN 48 as of January 1, 2007. See Note 5 to the financial statements for further information.

In September 2006, the FASB issued Statement No. 157, "Fair Value Measurements" ("SFAS 157"). SFAS 157 defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles, and expands disclosures about fair value measurements.

Subsequently, in February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities" ("SFAS 159"). SFAS 159 permits entities to choose to measure many financial assets and financial liabilities at fair value. Unrealized gains and losses on items for which the fair value option has been elected are reported in earnings. Both SFAS 157 and SFAS 159 are effective for us in 2008. We are currently assessing the impact of the adoption of these statements.

Employment-Related Items

In April 2007, we received a letter from the Central Agency for Social Security Organisations in France regarding a modification to the calculation of payroll taxes under certain French social programs aimed at encouraging the employment of low-wage workers. This modification reduces the amount of payroll taxes that we are required to remit, and it is retroactive to January 1, 2006. We are currently in the process of determining the impact of this change in calculation, however, we currently estimate a favorable impact in the range of 1% (100 basis points) related to our France operating unit profit margin for 2006 and the first quarter of 2007. We expect to finalize and record the impact of this change in the second quarter of 2007.

Forward-Looking Statements

Statements made in this quarterly report that are not statements of historical fact are forward-looking statements. In addition, from time to time, we and our representatives may make statements that are forward-looking. All forward-looking statements involve risks and uncertainties. The information under the heading "Forward-Looking Statements" in our annual report on Form 10-K for the year ended December 31, 2006, which information is incorporated herein by reference, provides cautionary statements identifying, for purposes of the safe harbor provisions of the Private Securities Litigation Reform Act of 1995, important factors that could cause our actual results to differ materially from those contained in the forward-looking statements. Forward-looking statements can be identified by words such as "expect," "anticipate," "intend," "plan," "may," "believe," "seek," "estimate," and similar expressions. Some or all of the factors identified in our annual report on Form 10-K may be beyond our control. We caution that any forward-looking statement reflects only our belief at the time the statement is made. We undertake no obligation to update any forward-looking statements to reflect subsequent events or circumstances.

Item 3 – Quantitative and Qualitative Disclosures About Market Risk

Our 2006 Annual Report on Form 10-K contains certain disclosures about market risks affecting us. There have been no material changes to the information provided which would require additional disclosures as of the date of this filing.

Item 4 – Controls and Procedures

We maintain a set of disclosure controls and procedures that are designed to ensure that information required to be disclosed by us in the reports filed by us under the Securities Exchange Act of 1934, as amended (the “Exchange Act”) is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms. We carried out an evaluation, under the supervision and with the participation of our management, including our Chairman and Chief Executive Officer and our Executive Vice President and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Rule 13a-15 of the Exchange Act. Based on that evaluation, our Chairman and Chief Executive Officer and our Executive Vice President and Chief Financial Officer concluded that our disclosure controls and procedures are effective as of the end of the period covered by this report.

There have been no changes in our internal control over financial reporting identified in connection with the evaluation discussed above that occurred during our last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION**Item 2 – Unregistered Sales of Equity Securities and Use of Proceeds**

In October 2006, the Board of Directors authorized the repurchase of 5.0 million shares of our common stock, not to exceed a total purchase price of \$325.0 million. The plan was announced on October 31, 2006. Share repurchases may be made from time to time and may be implemented through a variety of methods, including open market purchases, block transactions, privately negotiated transactions, accelerated share repurchase programs, forward repurchase agreements or similar facilities. The following table shows the total amount of shares repurchased under this authorization.

ISSUER PURCHASES OF EQUITY SECURITIES

	<u>Total number of shares purchased</u>	<u>Average price paid per share</u>	<u>Total number of shares purchased as part of publicly announced plan</u>	<u>Maximum number of shares that may yet be purchased</u>
January 1- 31, 2007	50,000	\$ 72.56	50,000	4,950,000
February 1 - 28, 2007	156,800	73.61	156,800	4,793,200
March 1 - 31, 2007	785,100	73.23	785,100	4,008,100 ⁽¹⁾

⁽¹⁾ Not to exceed a total purchase price of \$252.3 million.

Item 4 – Submission of Matters to a Vote of Security Holders

On May 2, 2007, at our Annual Meeting of Shareholders (the “Annual Meeting”) our shareholders voted on proposals to: (1) elect four directors to serve until 2010 as Class II directors; (2) ratify the appointment of Deloitte & Touche LLP as our independent auditors for 2007; (3) approve the Manpower Corporate Senior Management Annual Incentive Plan; and (4) a shareholder proposal regarding implementation of the MacBride Principles in Northern Ireland. In addition, J. Thomas Bouchard, Cari M. Dominguez (who was appointed to the Board of Directors on May 2, 2007), Rozanne L. Ridgway, and Edward J. Zore continued as Class III directors (term expiring 2008). Jeffrey A. Joerres, John R. Walter, and Marc J. Bolland continued as Class I directors (term expiring 2009). Stephanie Burns did not stand for re-election in 2007. The results of the proposals voted upon at the Annual Meeting are as follows:

	<u>For</u>	<u>Against</u>	<u>Withheld</u>	<u>Abstain</u>	<u>Broker Non-Vote</u>
1. a) Election of Gina R. Boswell	73,618,603	—	998,198	—	—

CERTIFICATION

I, Jeffrey A. Joerres, Chairman and Chief Executive Officer of Manpower Inc., certify that:

- (1) I have reviewed this quarterly report on Form 10-Q of Manpower Inc.;
- (2) Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- (3) Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- (4) The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)), and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- (5) The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
